DETAILED ACTION

The response filed on 11 June 2007 has been entered and overcomes the rejections to the claims.

Allowable Subject Matter

1. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1 the prior art of record neither shows nor suggest an organic EL device comprised of, in part, a second pixel electrode located on the first pixel electrode and contacting at least an upper surface and a side surface of the first pixel electrode, wherein the side surface of the first pixel electrode has a taper, along with the rest of the limitations of the claim.

Regarding independent claim 10 the prior art of record neither shows nor suggest a method of making an organic EL device comprised of, in part, forming a second pixel electrode on the first pixel electrode to contact at least an upper surface and a side surface of the first pixel electrode, wherein the side surface of the first pixel electrode is formed to have a taper, along with the rest of the limitations of the claim.

Regarding independent claim 20 the prior art of record neither shows nor suggest an organic EL device comprised of, in part, a first pixel electrode located in a predetermined area on the substrate, where the first pixel electrode has a side surface tapered toward an upper part thereof; a second pixel electrode located on the first pixel

electrode and contacting at least an upper surface and the side surface of the first pixel electrode, along with the rest of the limitations of the claim.

Regarding independent claim 21 the prior art of record neither shows nor suggest a method of making an organic EL device comprised of, in part, forming a first pixel electrode in a predetermined area on the substrate, where the first pixel electrode is formed to have a side surface tapered toward an upper part thereof; forming a second pixel electrode on the first pixel electrode to contact at least an upper surface and the side surface of the first pixel electrode, along with the rest of the limitations of the claim.

Due to their dependency, claims 2-9 and 11-19 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
